Explore drawing by breaking down what you observe into lines and shapes. Be inspired by live models while drawing with charcoal, pencils and pastels.

This class is for all levels. Don't be intimidated by drawing from a live model, it is the hardest thing to draw, but you will be guided to look for lines and shapes and angles. One step at a time, allowing yourself to learn at your own pace.

Class will begin by drawing basic shapes and still life and doing some warmup exercises. Then with the live model, quick drawing of their basic forms, changing poses every 15 minutes for an hour. Finishing up with a static pose for the last hour.

If you can draw well, live models will always provide inspiration and challenge no matter your goals.
